PROFESSIONAL SUMMARY

Agile Delivery Lead / Release Manager / Project Manager

Delivery Lead and Project Manager with 5+ years of experience driving end-to-end delivery governance, agile execution, capacity planning, and dashboard-driven reporting across large-scale digital platforms and multi-vendor ecosystems. Proven track record improving sprint predictability by 35%, releases on time by 40%, and reducing release delays by 75% through strong agile process ownership, RAID management, and change governance. Experience acting as Scrum Master across multiple pods, managing 200+ member delivery ecosystems, and governing national platforms such as Skill India Digital Hub and iGOT Karmayogi Bharat with 98% deployment success and zero critical production incidents.

Core strengths: Agile governance, multi-initiative project management, capacity and velocity analysis, stakeholder management, dashboarding and reporting, DevOps/CI-CD collaboration, and continuous improvement.

Led national platforms including **Skill India Digital Hub (NSDC)** serving **2M+ daily active users** with **98% deployment success rate** and **zero critical production incidents**. Currently managing delivery for **iGOT Karma yogi Bharat**, improving **sprint predictability by 35%** and **on-time releases by 40%**.

Proven track record in **Change Management, RAID Log Management, Capacity Planning, Dependency Management, Cost Optimization, and Production Support**. Expertise in establishing delivery frameworks, governance controls, and executive reporting that consistently achieve **95%+ stakeholder satisfaction**

SKILLS

- Agile Delivery & Governance
- Scrum Mastery (Multi-Team)
- Sprint Planning & Execution
- Capacity & Velocity Planning
- Multi-Initiative Project
- Delivery Governance
- Scrum Master / Agile Delivery
- Sprint Planning and Execution
- Change Management / CCB
- Management Reporting
- MS Excel
- Confluence
- Azure DevOps
- Production Support
- Dashboarding & Reporting (KPI)
- Jira Administration
- Resource Allocation
- DevOps and CI/CD
- Risk Management
- RAID Log Tracking
- Documentation Management
- Training Coordination
- Budget Tracking Support
- Resource Planning
- Capacity Planning
- Dashboard Reporting
- Stakeholder Management
- Go-Live Management
- Billing Management
- Billing and Resource Utilization

WORK HISTORY

Associate Project Lead – Delivery & Release Manager, 03/2025 - Current

SIDH and iGOT Karma yogi Bharat Platform- Tarento Technologies – Bangalore

- Lead end-to-end delivery coordination for the iGOT Karmayogi Bharat platform, supporting structured execution, cross-functional alignment, and management visibility for a large-scale national digital program.
- Manage project workflows across multiple Agile pods, improving sprint predictability by 35% and on-time release execution by 40% through disciplined planning, tracking, and follow-up.
- Coordinate closely with product owners, architects, SMEs, QA, and delivery teams to ensure requirements, user stories, and sprint inputs are complete, actionable, and aligned to project timelines.
- Maintain project governance through RAID logs, dependency tracking, release readiness checkpoints, and

structured status reporting to support timely decision-making.

- Facilitate project meetings, sprint ceremonies, planning sessions, and stakeholder reviews, ensuring actions are documented, assigned, and followed through to closure.
- Prepare executive summaries, delivery dashboards, and project health updates that improved decision turnaround time by 25%.

Key KPIs & Achievements

- 98% successful deployments across national platforms with zero critical production incidents.
- 35% improvement in sprint predictability and 40% improvement in on-time release adherence for iGOT Karmayogi Bharat.
- 25% faster decision turnaround through standardized dashboards and governance pack.

Senior Project Associate – Release Manager, 12/2024 - 02/2025

Tarento Technologies, Bangalore | *Program: Skill India Digital Hub – NSDC*

- Served as **Release Manager** for Skill India Digital Hub (NSDC), one of India's largest skilling platforms with **national strategic importance**
- Managed **Program-level delivery ecosystem** of **200+ team members** across multiple vendors with **Vendor Management, budget tracking, and resource optimization**
- Oversaw platform serving **2M+ daily active users** with **zero critical production incidents** through proactive **Incident Management and Production Support**
- Implemented **pre-release governance framework** and **Change Control Board (CCB)** reducing **post-go-live issues by 35%** and ensuring business continuity
- Collaborated with Cloud Architects and DevOps teams to design and manage scalable, secure multi-cloud deployments on AWS and Azure, ensuring high availability and cost-optimized environments across production and non-production workloads.
- Oversaw CI/CD pipelines, infrastructure provisioning, and environment stability using AWS Code Pipeline, Azure DevOps, and Terraform, accelerating release cycles and reducing unplanned downtime by 30% through automated, repeatable deployments.
- Ensured **100% on-time delivery** for multiple high-priority government releases through structured **Risk Management and RAID Log tracking**
- Established **Release Calendar** and **Dependency Management** processes improving cross-team coordination and predictability

Project Coordinator – Research & Delivery

Tarento Technologies, Bangalore | 10/2022 – 12/2024

Project: OLA Cabs – Strategic Research Program

- Coordinated large-scale **research program** for OLA Cabs focused on **pricing strategy optimization** and **competitive market intelligence** impacting revenue decisions
- Led research operations covering **10 major cities**, scaling to **pan-India coverage** through effective **Capacity Planning and Resource Allocation**
- Managed **competitive analysis, pricing research, data scraping, and market trend analysis** enabling strategic business decisions
- Built research frameworks and **reporting dashboards** for executive leadership **decision-making** and **cost optimization strategies**
- Improved **project efficiency by 40%** and **reporting accuracy** through structured governance and process optimization, directly impacting revenue strategy

Advisory & Implementation Associate

Maistering B.V., Bangalore | September 2021 – October 2022

Product: Master Collections (SaaS Platform)

- Supported **implementation and rollout** of Master Collections SaaS platform for global clients with focus on **Go-Live Management**
- Built **operational dashboards** and **performance reports** improving visibility by **40%** and enabling proactive decision-making
- Prepared structured **process documentation** and **training materials** for **Change Management** and client onboarding
- Assisted in **deployment planning, Production Support**, and customer onboarding ensuring smooth transitions
- Delivered **analytical insights** to improve **process efficiency** and product adoption rates across client base

EDUCATION

MBA – Business Analytics, MS Ramaiah University | 2021

B.E. – Mechanical / AI Engineering, NCET (VTU) | 2019

TECHNICAL PROFICIENCIES

Tools: Jira | Confluence | Azure DevOps | MS Excel | Power BI |

Methodologies: Agile | Scrum | Kanban | Release Management | Sprint Planning

Capabilities: Project Coordination, Delivery Governance, Reporting Automation, Dashboard Development, Documentation Management, Stakeholder Communication, Vendor Management, Resource Planning, Capacity Planning, Risk Tracking, RAID Logs, Change Management, Dependency Management, Budget Tracking Support, Production Support, Incident Management, Root Cause Analysis, Go-Live Management

KEY ACHIEVEMENT

- Recipient of 1 Synergy Award and 3 Quarterly Awards for exceptional delivery leadership
98% deployment success rate across multiple national government platforms
- Reduced release delays by 75% through structured governance and pre-release checklists
- Managed 2M+ daily users on Skill India Digital Hub with zero critical production incidents
- Improved sprint predictability by 35% and on-time delivery by 40% for iGOT Karmayogi platform
- Led 200+ member delivery ecosystem across multiple vendors and stakeholders
- Expanded OLA research program from 10 cities to pan-India coverage impacting revenue strategy
- Improved transparency by 40% through standardized Jira workflows and dashboards
- Maintained 95%+ stakeholder satisfaction across all projects
